HOT TAP/LINE STOP TEE FEATURES:

- Full branch or reduced branch fittings for use in Hot Tapping /Line Stopping operations
- Supplied with ASME Class 150, 300, 600, 900, 1500 flanges with RF or RTJ.
- Other flange classes available on request
- Tee available with a butt weld outlet, ready to be welded to a valve or other fitting
- Standard fittings meet the requirements of ASME B31.3 and ASME B31.4/B31.8 with a 0.72 design factor
- Compatible with all major models of hot tapping /Line Stopping equipment
- All pressure containing welds are 100% radiographed
- Back-up strips available
- Manufactured in compliance with ISO 9001:2015 certified quality program

Line Stop Housing

We manufacture and Supply 3 Inch to 60 Inches of 150 / 300/ 600 Class Pressure Ratings. For above 60 Inches and above 600 Class Pressure ratings kindly contact us.

Line Stop Heads

We manufacture and Supply 3 Inch to 60 Inches of 150 / 300/ 600 Class Pressure Ratings. For above 60 Inches and above 600 Class Pressure ratings kindly contact us.

Sandwich Valves

We manufacture and Supply 3 Inch to 60 Inches of 150 / 300/ 600 Class Pressure Ratings. For above 60 Inches and above 600 Class Pressure ratings kindly contact us

Line Stop Actuators

Line Stop Sealing Elements:

- Supplied Ready Drilled and ground to size or drilled and unground depending upon customer's requirement
- Available in Sizes from 4 to 60 Inches
- Available with NBR, EPDM, Viton and Polyurethane material
- Reinforced for High Pressure applications
